

Principles of Assessment

An interdisciplinary allied health clinical educator workshop

About the workshop

This workshop will explore the management of challenging situations in the context of student clinical placements. It will be in an interactive format, and will assist clinical educators to further develop their supervision skills.

Who should attend?

This interdisciplinary workshop is designed for allied health professionals who have some experience in clinical education and fieldwork. It is best suited for clinical educators who have supervised students and wish to understand more about and improve their skills in student assessment on placement.

Examples of workshop topics:

- ✓ Principles and challenges unique to assessment of students on clinical placement
- ✓ Assessment dilemmas
- ✓ Overcoming assessment dilemmas through well-designed assessment tools and procedures and by effectively using these assessment tools and procedures
- ✓ Giving feedback

Follow up support

Follow-up webinars will be arranged as needed to examine discipline-specific assessment tools for those disciplines taught at The University of Sydney (Diagnostic Radiography, Exercise Physiology, Occupational Therapy, Speech Pathology, Physiotherapy)

Your presenter - Sue McAllister

Professor Sue McAllister has over 30 years' experience as a speech pathologist, clinical educator, project manager, and academic. She is currently Associate Dean of the Work Integrated Learning [WIL] portfolio in the Faculty of Health Sciences, the University of Sydney. WIL is responsible for liaising with workplaces to create and support high quality learning and teaching practices. WIL aims to create value for clinicians in their workplaces, students on placement, and health consumers.
