

Essential Airway Skills Simulation Workshop

The Essential Airway Skills simulation workshop is designed to provide practical and hands on experience in airway management.

Topics included are:

- ◆ How to manage the emergency airway
- ◆ **Maintaining Airway Patency** - Using airway maneuvers, adjuncts & Laryngeal Mask Airways
- ◆ **Bag Valve Mask** - How to effectively ventilate a patient using a Bag Valve Mask
- ◆ **Advanced Airway Interventions** - In the critically ill patient including RSI and Surgical Airway
- ◆ **Case Studies** from the Emergency Department and the Pre-hospital environment

Target Audience: Retrieval Doctors, Medical Officers, Paramedics, and Registered Nurses.
