GP EMERGENCIES

SATURDAY 4 MAY 2024
9:45AM - 3:30PM

The GP Emergencies Workshop is designed to equip General Practitioners and primary care providers with the knowledge, skills, and confidence to effectively manage medical emergencies in the clinic setting. This dynamic workshop focuses on enhancing participants' ability to recognise, assess, and initiate appropriate interventions for a wide range of emergent conditions commonly encountered in primary care practice.

Topics include:

- Peer Review
- BLS Certification
- Managing Waiting Room Emergencies
- Smoking and Vaping Cessation
