ULTRASOUND VASCULAR ACCESS

TUESDAY 30 JULY 2024
9AM - 12PM

For more information please contact the Simulation Team
on 1300 965 800 or ucrh.simulation@sydney.edu.au

The Ultrasound-Guided Vascular Access Workshop is a comprehensive educational program designed to equip healthcare professionals with the knowledge and skills necessary to perform ultrasound-guided venous cannulation with confidence and precision. This hands-on workshop focuses on enhancing participants' proficiency in identifying and accessing peripheral veins using ultrasound guidance, thereby improving patient safety and procedural success rates. Facilitated by FACEM and Medical Educator, Dr Alex Pullen, this course covers anatomy, physiology and device selection.
