The "Skills & Drills" workshop aims to enhance the practical skills and competencies of healthcare professionals across various disciplines. Through a series of interactive sessions with experienced healthcare instructors, participants will engage in hands-on activities, simulations, and drills designed to sharpen their clinical skills, improve patient outcomes, and foster teamwork in healthcare settings. This workshop will include IV cannulation, intraosseous insertion and performing and interpreting ECG's. Through facilitated discussions there will be opportunities for participants to share experiences, challenges, and develop best practice.
