

Paediatric Advanced Life Support

14 & 15 SEPTEMBER 2026

8:30AM - 4:30PM

\$625 - \$895

<https://ucrh.edu.au/simulation-centre-registration/>

A two-day Paediatric Advanced Life Support (PALS) program for healthcare professionals caring for critically unwell children. The course focuses on recognising and managing paediatric emergencies, covering both basic and advanced life support skills. Based on the latest Australian Resuscitation Council and ANZCOR guidelines, the program combines evidence-based theory, hands-on skill stations, and realistic simulation scenarios to support confident clinical practice.
