

WOUND CARE

7 SEPTEMBER 2026
8:30AM - 3:30PM

\$325

<https://ucrh.edu.au/simulation-centre-registration/>

A practical, clinically focused workshop designed to enhance skills in wound assessment and management. Topics include skin integrity, the wound healing continuum, intrinsic/extrinsic factors, documentation, pressure injury and IAD classification, compression therapy, dressing selection and application, and an introduction to NPWT. Includes hands-on activities such as wound identification, dressing techniques, debridement, and compression application.

This workshop is in collaboration with Far North Coast Wound Services.
