GP Emergencies

SATURDAY 15 AUGUST 2026
8:30AM - 3:30PM

The GP Emergencies Workshop is designed to equip General Practitioners and primary care clinicians with the practical knowledge, skills, and confidence to recognise and manage medical emergencies in the primary care setting. This interactive workshop focuses on the early identification, assessment, and initial management of a range of acute presentations commonly encountered in general practice. Through case-based discussions, hands-on activities, and peer learning, participants will strengthen their emergency response capabilities and improve patient outcomes in the clinic environment.

Topics include:

- BLS Certification
- Voluntary Assisted Dying
- Making the Most of Medicare
- Simulated Waiting Room Emergencies
